Equipment Requirements

Outcomes 2 and 3 from Unit 3 and outcome 1 of Unit 4 combine to make your School Assessed Task (SAT). This task is worth 37% of your study score. As part of satisfactorily achieving these outcomes you will need to use equipment to produce a media product.

It is your responsibility before you enrol in Units 3 & 4 Media to ensure that you are able to use Media equipment that you are comfortable with and that that you can verify that you have an understanding of how to use the equipment. The equipment relates to the medium that you choose to do for your SAT. For example, if you were producing a video or film sequence, you may use equipment that could include hardware such as a camera/video camera, and software to produce your final product, such as Final Cut Pro. Currently you can choose from the following:

- a video or film sequence
- a radio or audio production
- an animated production
- a photographic presentation
- a print production

For further details please view the DECV Media Subject Information Page.

DECV Media Print and Photography Printing Guidelines:

1. Students must send a pdf version of their print and photography production to their media teacher to be sighted prior to it being printed.
2. Students must print the production as it is presented to the DECV Media teacher in the initial sighting.
3. Students must not change their production in any way or seek assistance to alter the media product’s appearance while it is printed.

Student Declaration

Please tick the boxes and sign the declaration below. A signed declaration is required in order to enrol in Units 3 & 4 Media at the Distance Education Centre Victoria. Once completed, this form can be attached to the student’s enrolment application.

- I am aware that in order to satisfactorily complete the outcomes of the SAT, I am using equipment that I am comfortable with and I can verify that I have an understanding of how to use the equipment.

- I am aware that I need to comply with the DECV Media Print & Photography printing guidelines if I have chosen these mediums when producing my media product.

- I acknowledge that the work I am undertaking in DECV Media is my own.
